Improving Cardiac Care at the Royal Inland Hospital in Kamloops, BC

ICCHA/Wish Coronary Care Unit

ICCHA means WISH and this landmark Coronary Care Unit is the cherished wish of the many generous donors of the ICCHA/WISH Fund at RIH Foundation. The fund was established in 2007 to support critical and advanced health care at Royal Inland Hospital.

Thank you to the donors, volunteers and supporters for making this dream a reality. It is with your generosity, commitment and dedication we will continue to improve cardiac care for our region.

Improving Cardiac Care at the Royal Inland Hospital in Kamloops, BC

2020 GOAL: \$300,000+

"ICCHA means "WISH" in many languages of India. When someone is sick in the hospital, we wish them well but that is not good enough, WE HAVE TO DO MORE! A wish for a healthy community can come true by businesses and individuals giving something back for the benefit of all who rely on Royal Inland Hospital." - Al Patel, Founder

For the Community... By The Community.

The ICCHA/WISH Fund is proud to announce the opening of the new

ICCHA/WISH Coronary Care Unit

This is the first step in reaching our ultimate dream of a Catheterization Lab for the Royal Inland Hospital.

2020 GOAL: To raise \$300,000+ and provide a dedicated ECHOCARDIOGRAPHY machine that will improve upon the current wait time of non-invasive patient diagnosis.

With approval of Interior Health Authority, more funding will be needed for:

- 2 C-ARMS for cardiologists to accurately perform life-saving procedures in emergent situations.
- Establishing dedicated space at Royal Inland Hospital for a Catheterization Lab with onsite PCI capability by 2025 to diagnose and treat patients here in Kamloops.

These steps are the prerequisites to make the wish for our community come true - one step at a time.
